When the Fire Alarm Sounds

For Any Emergency--Dial 911

Report. Anyone causing a false alarm to the emergency responding personnel.

Never re-enter the building. If the officials give the approval, evacuate on the direction of the personnel.

Never re-enter the building. If the officials give the approval, evacuate on the direction of the personnel.

Assist a physically impaired person. Contact the closest exit, stairwell, and advise for help.

Crawl. Should you get caught in smoke, if necessary. Go to the window and signal.

Use the exit stairs. Keep your face down. Close the door as you leave the room.

Immediately evacuate. Treat all alarms as a real emergency. Always feel the door. A "too hot to touch door" means the fire is outside the door.

If you are a personal safety hazard, use an extinguisher only if you have been trained and the situation does not.

Note: You are not required to extinguish a fire with a fire extinguisher and should not.

Evacuate the building and report the situation to the first arriving fireman or police.

C. Continue the fire by closing doors as you leave the building.

A. Activate the fire alarm system: Dial 911 as soon as possible and report the incident.

NEVER enter an unknown area, especially if smoke is visible.

If you rescue, it is possible without endangering yourself. Everyone in immediate danger.

Person discovering fire shall

and emergency procedures. During an emergency, all occupants should become familiar with the routes and emergency procedures that have proven to be beneficial for occupational safety.

The evacuation routes illustrate the exits for evacuation of this building and lists.
