EXECUTIVE BIO

Mr. Rowland has more than 38 years of engineering, manufacturing test, sales and strategy experience. Currently, Mr. Rowland is CEO of Badger Technologies, a product division of Jabil. In this role, he is responsible for driving all aspects of the sales, development, delivery and service for Badger Technologies' suite of retail offerings.

Prior to Badger Technologies, Mr. Rowland spent 28 years at Lexmark where he successfully launched an engineering startup focused on retail robotics (acquired by Jabil in 2017). Mr. Rowland also spent 10 years at IBM in various manufacturing test engineering, development and research roles. Mr. Rowland is a graduate of Georgia Tech with a Bachelor's degree in Electrical Engineering.
