**EDUCATION ABROAD PROGRAMS**

Students can pick from over 400 programs around the world offered through the Education Abroad Office. Many programs have NO foreign language requirements. These programs also include unique opportunities like internships abroad.

## HOW MUCH DOES IT COST?

It's important to understand that the price of a study abroad program is based on more than just the program tuition. The cost reflects a variety of factors including:

- » **ROOM AND BOARD**
- » **TRANSPORTATION**
- » **ESTIMATED TRAVEL EXPENSES**
- » **PROGRAM DURATION**

Much like a semester on campus, it is important to consider all of these when budgeting for your time abroad.

## FUND(RAIS)ING YOUR PROGRAM:

While it is important to apply for as many scholarships as possible, the most successful students who have studied abroad have used a variety of sources to finance their experience.

Much like a semester on campus in Lexington, it's important to budget for all of the different expenses associated with spending a semester in another country.
