MARCH 11 & 12
Gatton Student Center,
University of Kentucky

WHY EXHIBIT AT THE UNIVERSITY OF KENTUCKY SUPPLY CHAIN FORUM

While the University of Kentucky Supply Chain Forum maintains an intimate attendance of 150-200 participants, it offers unparalleled value for exhibitors, making it a strategic investment for showcasing your latest technology. Check out the top five reasons to exhibit!

1. Target Audience

Despite the forum's modest size, it attracts a highly focused audience comprising industry leaders, key decision-makers, and influencers in the supply chain sector. This means that your innovations will be presented directly to the people who matter most.

2. Engaged Student Participation

Approximately a quarter of the forum attendees are enthusiastic students from the Gatton College of Business and Economics' MS Supply Chain Management and MBA programs. When forum attendees are not in the Exhibitor Hall, we invite the University of Kentucky's engineering students to attend, offering exhibitors additional exposure to talented individuals with a strong interest in supply chain innovations. These future industry professionals are keen to engage with cutting-edge technology, providing exhibitors with a unique opportunity to influence and build relationships with the next generation of supply chain leaders.

3. Networking Opportunities

The forum's intimate setting fosters meaningful interactions. Exhibitors can engage in in-depth conversations, receive valuable feedback, and establish strong connections with both seasoned professionals and eager students. This level of engagement is often not possible at larger, more impersonal events.

4. Recruitment Opportunities

The forum is an integral part of the MS Supply Chain Management curriculum, offering exhibitors a direct pathway to sponsoring capstone projects and recruiting top talent. This provides a dual benefit: showcasing your technology and sourcing skilled graduates who are already familiar with your company and its innovations.

5. Cost-Effective Exposure

Compared to larger, more expensive events, the University of Kentucky Supply Chain Forum offers a cost-effective platform to exhibit your technology. The focused nature of the event ensures that every interaction is meaningful and impactful, maximizing the return on your investment.

EXHIBITOR PACKAGE: \$1,500

- Dedicated time for Exhibitors on the agenda; meals provided in the hall for additional contact time; and hall open to non-forum students with interest in supply chain technology and innovation
- Capability to showcase large, automated, robotic solutions (same floor double door access for load-in)
- Two (2) complimentary admissions to the event (\$790 value)
- Provided: Up to 20 x 20 ft exhibit space, one (1) table with drape, two (2) chairs, and Wi-Fi access
- Available for Additional Cost: Pipe & drape, power, wired internet access, and additional admissions

Exhibitor Hall located in the Gatton Student Center Grand Ballroom. Convenient load-in access on same level as the hall through large double doors allowing for oversized automation and robotic equipment displays.

WHAT WE ARE ALL ABOUT

Celebrating its 15th anniversary, the University of Kentucky Supply Chain Forum, established by the Gatton College of Business and Economics in 2010, is a premier event dedicated to fostering collaboration and learning in the supply chain community. This forum was initiated with the aim to:

- Promote supply chain learning between the Gatton College of Business and Economics (Gatton) and supply chain professionals of all levels.
- Connect Gatton College Master's degree candidates and alumni with industry leaders.
- Encourage community partnerships with Gatton's Professional Masters Programs.

WHY YOUR COMPANY SHOULD PARTICIPATE

Past participants have consistently praised the forum for its enriching interactions and the unique chance to connect with future leaders from Gatton College. Here is what attendees can expect:

- **World-Class Presenters:** Gain insights from top-tier professionals from renowned companies. Our 2024 presenters were from Coca-Cola, Coupa, Hershey, kdc/one, Nestle, ProvisionAI, Target, and United Rentals.
- **Affordable Excellence:** Enjoy high-quality content and networking opportunities at a fraction of the cost compared to other forums and conferences.
- **Intimate Setting:** With a selective attendance of 150-200 participants, the forum ensures meaningful interactions and personalized experiences.
- **Networking Opportunities:** Engage with Gatton College graduate students, regional supply chain professionals, and UK alumni, fostering valuable professional connections.

Our Connection with the Gatton College of Business and Economics

The University of Kentucky Supply Chain Forum was established by dedicated Gatton faculty, staff, and alumni passionate about supply chain management, with a strong emphasis on student involvement.

Recognizing the growing need for specialized supply chain professionals, Gatton launched the Master of Science in Supply Chain Management (MSSCM) program, graduating its first cohort in August 2020. Since then, the MSSCM program and the University of Kentucky Supply Chain Forum have become closely intertwined.

Today, University of Kentucky Supply Chain Forum is an integral part of the MSSCM curriculum. It serves as a platform for industry partners to sponsor capstone projects, provide guest lectures on current supply chain issues, and recruit graduates from the MSSCM program. This synergy enhances the learning experience for students and strengthens the collaboration between academia and industry.
